Audiovisual Information

All meeting rooms have an LCD projector (Dell 3100 MP or 3300 MP) and a NetBook computer. Bathrooms do not. The NetBook computers are operating with Windows XP. They are equipped with Open Office (a shareware version of MS Office), Adobe PDF Reader, PowerPoint Reader, Media Player, and antivirus software. You should come to the session with your presentation saved on a USB flash or thumb drive. Please use an inexpensive, disposable drive that you can throw away after the presentation. Though antivirus software is loaded on the computer, there still exists the possibility your drive can get infected. Many people will be using the computers over the course of the conference and some viruses could be transmitted in spite of these precautions.

Presenters will NOT be able to use their own laptop computers. DO NOT DISCONNECT THE LAPTOP COMPUTER; this may cause the LCD projector to reset and you may need technical support to fix it. This will use up the limited time you have for your presentation.

*To begin your presentation, insert your flash drive into the USB port on the NetBook;
*Open the appropriate software (i.e., to show a PowerPoint presentation, use PowerPoint Reader);
*Find your file and double click on it to open the file;
*Keep the flash drive plugged in during your presentation;
*When the presentation is completed, close all windows;
*Click on the Safely Remove Hardware icon (flash drive with a green check mark) in the bottom right hand side of the screen;
*Wait until you are prompted to remove the flash drive, then remove the flash drive.

If you have problems, call PSAV at (312) 917-1706. Let them know you are with the MPSA Conference, the room you are in, the type of problem you are experiencing, and that you need an AV engineer to assist you. For security reasons, NetBook computers and LCD projectors will be removed from all meeting rooms immediately upon conclusion of each day’s panels.

Additional A/V services are available, such as establishing internet access in meeting rooms, at your cost and must be arranged in advance. Contact PSAV at (312) 917-1706 for quotes and additional A/V options.

Travel Information

Safety in the City: Please exercise caution in Chicago, just as in any other big city. A few simple precautions include the following: remove your badge outside the conference site; keep all valuables out of sight; don't display expensive jewelry, cameras, bags, and other items that might draw attention; avoid pickpockets (wallets should be kept in front pockets and purses worn across the shoulder); stick to well-lit, well-traveled streets; and always lock your car.

Ground Transportation: Getting around Chicago without a car is easy -- use public transportation, taxis, or walk! If you need advice on getting around, ask the hotel concierge.

Shuttle: Airport Express runs buses from O'Hare and Midway airports to the Palmer House. Airport shuttles leave airports every 10 to 15 minutes. Shuttles cost $27.00 each way between O'Hare and downtown, or $22.00 one way between Midway and downtown. Approximate time to O'Hare is 40 minutes and 25 minutes to Midway. For information, schedules, or reservations, call (888) 284-5826 or contact the hotel concierge for hotel departure information. All major credit cards are accepted.

Bus/Train: Continental Air Transport (CTA) runs service from the Palmer House to O'Hare and Midway airports. Approximate time from downtown is 45 minutes to O'Hare and 30 minutes to Midway. The fare for one ride is $2.25 and $0.25 per transfer. For route, fare, and schedule information call (888) 968-7282. If you plan on using the CTA to get around, Visitor Passes are your best value available for one day ($10.00), three days ($30.00), and seven days ($33.00). These allow unlimited rides on buses and trains. Purchase passes at airports, visitor information centers, Union Station, and other select Chicago attractions or inquire at the hotel for details about this service.

Taxicabs: Taxis from O'Hare typically cost approximately $46.00, and from Midway they cost approximately $33.00. An additional charge of $1.00 is added to the total fare on each trip to or from the airports under the State of Illinois Metropolitan Pier and Exposition Authority Airport Departure Ordinance. The tax should appear on the meter as an "extra" charge. In Chicago, you pay the amount shown on the taximeter, plus any tolls. The meter should start at $2.25 and then increase $1.50 for every mile or $2.00 for every six minutes of waiting time. There is an extra $1.00 charge for additional passengers over the age of 12 and under the age of 65. There is no extra charge for baggage or credit card use, and tipping is optional. Drivers are not required to carry or change bills larger than $20.00. Cabs are readily available at the hotel.

Chicago Trolley Company: Chicago's best fully narrated tour stops at all of Chicago's top attractions and offers San Francisco-style trolleys or London-style double-decker buses. Tours take about two hours. The tour offers unlimited boarding for those who wish to explore the city, with another trolley or bus arriving every 20 to 30 minutes. Some of the stops on the route are the Art Institute, Hilton Towers and Hotel, Field Museum, Navy Pier, Water Tower, Magnificent Mile, Theater District, Hancock Center, Wrigley Building, Sears Tower and River North. Hours of operation are from 10:00 am to 4:00 pm seven days per week. All day tickets are $31.50 for adults, $22.50 for seniors, and $15.00 for children ages 3-11. Tickets may be purchased at all boarding locations beginning at 8:45 am. For locations without a ticket booth, board the trolley and purchase a ticket from the driver. Call (773) 648-5000 for routes and departure times.

Chicago CityPass: The CityPass offers tickets to five of Chicago's best attractions and saves you 50% off box office prices if purchased individually. This is not a group tour and is designed to allow independent touring. The CityPass includes admission to the Adler Planetarium or the Art Institute of Chicago, Field Museum, Skydeck Chicago, Shedd Aquarium VIP, and Hancock Observatory or Museum of Science and Industry. Tickets are valid for nine days from first use and are $94.00 for adults and $79.00 for children. CityPass may be purchased at any of these attractions. For questions, visit their website at www.citypass.com or call (888) 330-5008.

Chicago Hauntings: The two hour and 30 minute tour visits 30 haunted sites, including stops where guests may depart the bus and investigate for themselves. Tours depart Friday and Saturday at 7:00 pm from 600 N. Clark Street (Clark and Quincy), next to the Rock & Roll McDonalds, across from the Hard Rock Cafe and Rainforest Cafe. Tickets are $24 ($20 for seniors and military). For more information and reservations, call (888) 446-7891.
Participant Instructions

Panels
Panels provide each author with an opportunity to present an abbreviated version of his or her paper at the specified time in the printed program. Feedback and comments will be provided by the discussant, followed by comments, questions, and discussion including the audience. Having three to five papers assigned to a session allows approximately 5 minutes for the chair to introduce the session, 10 to 15 minutes per author presentation, 20 minutes of feedback, and 20 minutes of discussion with the audience.

The Role of Panel Chair
The chair is responsible for introducing each paper and the authors as well as the discussant(s). The chair is also responsible for completing the presenter attendance form for the session. In addition, the chair is responsible for managing the time for each presentation, ensuring no author exceeds his or her assigned time slot on the program, and insuring that the discussion is polite and productive. The exact time for each presenter is listed in the program.

The chair records attendance on the attendance/nomination form provided, and is responsible for recommending papers to the MPSA office for any awards. You may nominate papers by indicating your nominations (name of author(s), title of paper, and award) on the attendance/nomination form or by email to mpsainfo@mpsnet.org. Attendance/nomination forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators. The MPSA strongly encourages panel chairs to make nominations as soon as possible while the paper presentations are still fresh in their minds.

The Role of Panel/Poster Discussant
Discussants provide feedback regarding research papers that are presented in a panel or poster session, pointing out both the strengths and areas of improvement. Discussants also may place the research in a broader context and discuss trends and themes.

For poster sessions, the discussants examine each poster to which they are assigned and provide feedback to the author. This is much more casual than serving as a discussant on a panel, where they provide feedback in front of an audience.

Discussants also record attendance on the attendance/nomination form and are responsible for recommending papers to the MPSA office for any awards. You may nominate papers by indicating your nominations (name of author(s), title of paper, and award) on the attendance/nomination form or by email to mpsainfo@mpsnet.org. Attendance/nomination forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators. The MPSA strongly encourages discussants to make nominations as soon as possible while the paper presentations are still fresh in their minds.

Posters
An attempt is made to organize posters by topic to encourage attendance at the poster presentations. Poster board assignments are listed in the Daily Program Schedule. Poster sessions are held in the 4th floor Exhibit Hall. Poster presenters should arrive 15 minutes before the session begins and remain throughout the entire poster session to answer questions. Have all presentation materials prepared for quick assembly. Posters should be attached to one side of an 8" x 4" freestanding bulletin board; supplies are provided. Please be sure to remove your poster at the end of the poster session, because another group of posters will be scheduled after yours.

Roundtable Presenters and Chairs
Typically four to eight panelists participate in a roundtable, which includes a chair who introduces the panelists and provides a substantive introduction to the topic. Participants do not prepare papers. They make brief introductory remarks before engaging in ad hoc discussions. The roundtable chair is responsible for completing the attendance form for the session. Attendance forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators.

Proposal Deadline: October 4, 2013
Instructions for Submitting Proposals

Proposals are to be submitted online using the 2014 Participation Proposal Form available on our website after August 28, 2013, at http://www.mpsanet.org.

Proposals should be submitted directly to the appropriate section heads of the 2014 Program Committee using the online form. Do not send the same proposal to more than two section heads. Submitting a proposal to two section heads does not increase the chance of having the proposal accepted.

If you are offering to serve as a chair or discussant, please indicate your fields of expertise and provide a statement of your interests. Individuals may participate on no more than two panels, roundtables, and/or poster sessions. Participants may give one paper presentation and have one other role (as chair, discussant, co-author). Groups not affiliated with the MPSA that wish to sponsor sessions should contact the MPSA (conf@mpsanet.org) to arrange this.

Papers may be presented in either a panel format or in a poster format.

The 2014 meeting will take place over four days, on a Thursday morning through Sunday afternoon schedule of sessions. By submitting a proposal, individuals agree to be available to participate in sessions during any of the four days of the conference. Requests for specific days or times for participation are not accepted, except for reasons related to religious observance or unusual family circumstances. Though the MPSA does value teaching, approximately 80% of attendees teach and we cannot schedule around anyone’s teaching schedule. Special scheduling requests must be submitted to conf@mpsanet.org no later than November 15, 2013.

The Midwest Political Science Association reserves the right to accept or reject any proposal received from an individual or individuals desiring to participate in the annual meeting.
2013 Paper Awards

The MPSA provides awards for outstanding papers and posters delivered at the annual conference. Nominations are made by conference discussants, chairs, and section heads after the conference. The Association strongly encourages individuals holding these section or session responsibilities to nominate papers from their sessions for consideration.

Chairs and discussants may nominate papers at the conference by completing the white attendance/nominations forms. Alternatively, nominators may prepare a memo that states the award for which the paper is to be considered. The memo should include the author(s) name, title of paper, and session on which the paper was presented. Nomination should be emailed by July 1, 2013, to the MPSA office at mpsainfo@mpsanei.org. Award committees select the winners. Awards are announced at the MPSA business meeting, held during the Annual Conference, the following year.

2014 Nominations Committee for MPSA Officers and Council Members

President-elect Author Lupia has appointed the following individuals to serve as the Nominations Committee for officers and council members to be elected in 2014.

Nominations Committee 2014:
Rose McDermott, Brown University (Chair)

Tasha Philipps, University of Texas at Austin
Henry Sinclair, University of Chicago

Nominations are invited for President-elect (2014-2015), Vice President (2014-2016), and Council Members (2014-2017) for terms beginning in April 2014. Send a nomination letter and C.V. by October 1st to the committee chair: Rose McDermott at rose.mcdermott@brown.edu.

The American Journal of Political Science, the official journal of the MPSA
Instructions for Contributors to the AJPS

Manuscript Preparation. A manuscript submitted for review to the American Journal of Political Science should be prepared as follows:

* The manuscript should address an important research problem or question; display a high level of creativity or innovation in research; contribute in a novel way to a body of knowledge; and, as appropriate, demonstrate high quality theorizing and/or state-of-the-art methodological use.

* The manuscript must effectively and informatively communicate its contribution to a general political science audience.

* The manuscript must include a concise, descriptive, and informative abstract of 150 words or less on the title page. The word count for the manuscript must follow the abstract.

* Longish reviews of the literature are discouraged. The manuscript should engage the relevant literature, clearly demonstrate gaps in that literature, and be clear about its contribution.

* The use of figures that demonstrate an argument or a finding is strongly encouraged. The extensive use of tables is discouraged in the main text.

* The use of supporting information (SI) is strongly encouraged (and treated as a substitute for appendices). Such information will not be counted toward the word count noted below. SI should be aimed at a sophisticated reader with specialized field expertise. For example, formal theory may include proofs; computational models may include computer code, experiments may include the details of the protocol; empirical work may include data coding, alternative econometric specifications and additional tables and figures that elaborate the manuscript's primary point. SI will be sent to reviewers. If the manuscript is accepted for publication, the SI will be permanently posted on the publisher's website with the electronic copy of the article.

* The manuscript should follow the style guidelines of the American Political Science Association's Style Manual for Political Science (rev. August, 2006) which is based on The Chicago Manual of Style (15th edition). The guidelines include, but are not limited to, matters of text style, citations, appendices, notes, references, and tables/figures.

* The manuscript should not exceed 8500 words. The word count for the manuscript must follow the abstract on the title page. The word count includes all information from the Introduction through the Discussion/Conclusion. It excludes the Abstract, Bibliography, and Supporting Information. It will include figures and tables (see the next bullet point). A manuscript that exceeds this length will be returned without review unless the author specifically requests, justifies, and receives the Editor's exemption.

* For purposes of review, figures and tables should be inserted into the body of the manuscript.

* Figures and tables must be numbered consecutively.

* All text, footnotes, and bibliographic references must be doubled-spaced and printed in a standard 12-point type font (tables may be single-spaced). Page margins should be a minimum of one inch. All bibliographic references are Last Name, First Name (not Last Name, First Initial); e.g., Smith, John, not Smith, J.

* To help with your preparation, download the AJPS Style Guide. The guide has been developed by former and current editors of the Journal of Politics and the American Journal of Political Science.

Manuscript Submission. A manuscript intended for review by AJPS must be submitted to Editorial Manager as follows:

* Submission is available on the journal's website at www.ajps.org. Only electronic submission is accepted. Other forms of submission will not be accepted.

* Before submitting a manuscript, the contact author should have available the names and email addresses of all authors and the text of the manuscript abstract. At this time, she should identify a research subfield for the manuscript. An author submitting a revised manuscript should further have available the original manuscript number.
• An original or revised manuscript must include one anonymous (PDF, Word, or LaTeX) file as described below:
  ◦ The contact author must submit an entirely anonymous version of the manuscript.
  ◦ An anonymous file must exclude such author-identifying information as the cover page information on authors' names and universities, expressions of appreciation to others for advice or data, statements of where the manuscript may have been presented at a conference and citations to the author's unpublished work.
  ◦ The file should be marked "anonymous” in the “document summary” tab and the file should be printable. This file should also contain any supporting information (SI) and it should be clearly marked.
  ◦ An author who submits a revised manuscript must place any comments to reviewers in the dialogue box during the submission process in the Editorial Manager.
  ◦ An author may, but is not required to, include comments to the Editor, acknowledgements, and details on where the paper has been presented. This information can be inserted in the "author’s comments” field in Editorial Manager.

• If a manuscript is accepted for publication, it will not be published unless the first footnote explicitly states where the data used in the study can be obtained for purposes of replication and must report any sources that funded the research. In addition, if Supporting Information (SI) accompanies the article, it must be ready for permanent posting. Manuscripts without data or SI are exempt.

• An author may recommend 3-4 individuals who are particularly qualified to review the manuscript. Recommendations cannot include an author's doctoral dissertation supervisor, someone with whom an author has co-authored in the past 12 months, colleagues in an author's department or comparable academic unit, or anyone with whom an author has a family or other personal relationship. Recommendations are recommendations; none, one, or all of them may be selected to review. An author's recommendations must include a name and a contact email address. Author recommendations should be via the Editorial Manager system.

• An author may recommend 3-4 individuals who should not review the manuscript. The author should provide reasons why such individuals ought to be disqualified. These recommendations will be taken into account in the review process, but should not be construed as barring such individuals from the review process.

Other Notes

The American Journal of Political Science does not review manuscripts that:

• Are not analytically rigorous, of high quality, and self-contained;
• Are unsolicited rejoinders to recently published articles;
• Are reviews of books or essays on current events;
• Are under review elsewhere or published already;
• Ignore one or more of the substantive, stylistic, or formatting preparations or procedures stated above.

The AJPS is committed to the integrity and quality of the review process. It conducts this process in a manner that is timely but also depends on reviewer response. Accordingly, the review process can take as much as six months. All reviews are advisory to the Editor.

The Editor often returns a manuscript without review if it does not meet the standards of the AJPS.

Introduction to Comparative Politics
The State and its Challenges

ROBERT HISLOPE, Union College, New York
ANTHONY MUGHAN, Ohio State University

This accessible and lively introduction to comparative politics offers a fresh perspective on the fundamentals of political science. Its central theme is the enduring political significance of the modern state despite challenges to its sovereignty. The text engages readers as it traces states' struggles against the pressures of global economic and political interdependence, fragmented identities and secessionism, transnational criminal networks, and terrorism.

"Hislope and Mughan have written a superb book—full of fresh insights, lively writing, and good sense...An ideal introduction to comparative politics."
—Timothy Frye, Columbia University

Social Science Methodology
A Unified Framework
2nd Edition

JOHN GERRING, Boston University

This new edition of John Gerring's exceptional textbook has been extensively developed with the introduction of new material and a thorough treatment of essential elements such as conceptualization, measurement, causality and research design. While offering a handy overview of the subject, the book is also an argument about how we should conceptualize methodological problems. Thinking about methodology through this lens provides a new framework for understanding work in the social sciences.

Artfully weaving in the analytic theme of “power” and the evaluative theme of “citizenship,” Christine Barbour and Gerald C. Wright deftly draw students into thinking critically about how and why institutions and rules determine who wins and who loses in American politics. Every section and feature in the book has one goal in mind: to get students to think analytically and be skeptical of received wisdom.

Full Version, Essentials Version (no policy chapters) or Brief version (condensed with policy throughout)

Praised for its engaging narrative, The Logic of American Politics, Sixth Edition hooks students with great storytelling while arming them with a toolkit of institutional design concepts. By giving them a taste of real political science in the introductory course, students recognize not only how the American political system was designed the way it was, but also understand why it works the way it does. The authors build students’ critical thinking through a simple yet powerful idea: politics is about solving collective action problems. With a new full-color interior, the latest edition of this best seller continues to pay special attention to polarization as the authors consistently return to the country’s divide—among voters and in government—as they update with coverage of the 2012 elections and address hot-button issues in American government.

Bruce Bueno de Mesquita, who set the standard for the scientific approach to international relations, has returned with a reformulated fifth edition of Principles of International Politics, based on extensive reviewer feedback and newly guided by an emphasis on questions about the causes and consequences of war, peace, and world order. More than ever, the strategic perspective in international relations is examined with complete clarity, precision, and accessibility.

Kevin B. Smith and Alan Greenblatt chart the future for states and localities as they deal with new federal regulations, a decrease in public sector employment, the consolidation of agencies, and the weakening of labor unions’ political clout. The fourth edition of Governing States and Localities continues what has always set this introductory text apart: its expert blend of the latest scholarship with engaging journalistic writing. Along with their crisp storytelling, the authors employ a comparative approach so students walk away from the course understanding how and why states and localities are both similar and different in institutional structure, culture, history, geography, economy, and demographics.

Drawing on both political science and legal studies, Constitutional Law for a Changing America: Institutional Powers and Constraints, Eighth Edition and Constitutional Law for a Changing America: Rights, Liberties and Justice Eighth Edition by Lee Epstein and Thomas G. Walker helps students realize that Supreme Court cases are more than just legal names and citations. As always, Epstein and Walker account for the most recent Supreme Court cases and the latest scholarship on the justices and their decisions. In preparing these editions, Epstein and Walker reorganized chapters, sharpened the editing of case excerpts, and added supplementary material—all with the goal of enhancing student understanding of constitutional law and the judicial process.

*Congress and Its Members, Fourteenth Edition* is the gold standard for the Congress course. Over 13 editions, the book has offered comprehensive coverage of the U.S. Congress and the legislative process by looking at the tension between Congress as a lawmaking institution and as a collection of re-election-minded politicians. Always balancing great scholarship with currency, the book features lively case material along with relevant data, charts, exhibits, maps, and photos.

Walter Oleszek's definitive work, *Congressional Procedures and the Policy Process*, examines how the majority and minority parties use procedural devices to achieve their political goals and offers an assessment of the role of conference committees in reconciling bicameral differences. Not shying away from the complexity of the topic, Oleszek ensures that the machinations of Congress are understandable through an array of interesting examples, cases, and anecdotes that he is particularly well-positioned to witness and experience first-hand. Updates include an analysis of budget "brinkmanship," the increased use of "filling the tree" in the Senate, and a look at how the oversight approach of Congress triggers legislative-executive clashes.

Since its first edition, *Congress Reconsidered* was designed to make available the best contemporary work from leading congressional scholars in a form that is both challenging and accessible to undergraduates. For almost four decades, Lawrence Dodd and Bruce Oppenheimer have delivered on this goal. With their tenth edition, this tradition continues, but with the benefit of contributing authors now able to focus on how various aspects of Congress have changed over time. Gary Jacobson not only analyzes congressional elections in the present day, but looks at changes that have occurred in elections since the 1970s, while Kathryn Pearson examines the growth (in number and influence) of women members of Congress. Simply put, this volume remains on the cutting edge with key insights into the workings of Congress.

Known for shedding light on the link between the courts, public policy, and the political environment, the new ninth edition of *Judicial Process in America* provides a comprehensive overview of the American judiciary. Considering the courts from every level, the authors thoroughly cover judges, lawyers, litigants, and the variables at play in judicial decision making. This remarkably current revision will only solidify the book's position as the standard-bearer in the field. As with previous editions, students and professors will appreciate the annotated U.S. Constitution located in the appendix.

Textbooks seldom inspire accolades, particularly the dry behemoths often used in survey courses. A *Novel Approach to Politics* turns conventional wisdom on its head. This is a textbook your students will want to read! Douglas A. Van Belle delivers all of the core concepts and real-world political examples you expect from an introductory book, gives students a solid grounding in political institutions, ideologies, economics and more—all while referencing examples from *Game of Thrones* to *The Avengers*.

Political science is too often introduced to students as a segmented field. *The Challenge of Politics* instead shows how the subfields converge around a set of crucial questions: can we articulate a view of the good political life? Can we develop a science of politics to help us understand political phenomena? Can we bring political wisdom to bear on judgments about politics and public issues? Can citizens and students creatively address the future of politics?

*Challenge* gives students an avenue to explore the impact of philosophy and ideology, to recognize major forms of government, to evaluate empirical findings, and to understand how policy issues affect people's lives.
Come to the SAGE/CQ Press booth (#102) and check out these latest publications:

The United States faces growing challenges to its primacy in the global balance of power. The very factors that have given rise to its dominance—a sense of exceptionalism, the sharing and fragmentation of political power, and the engagement of civil society in the foreign policy process—also create vulnerabilities for the country. Fast-moving developments overseas, meanwhile, won't wait for U.S. leaders to adopt perfect foreign policy strategies. *U.S. Foreign Policy: The Paradox of World Power* 4e provides students with a concise and accessible overview of this foreign policy paradox, and highlights the challenges facing policy makers.

Framed in context of the aftermath of the financial crisis and Great Recession, the ninth edition considers how policy has been impacted by persistent unemployment, growing income inequality, and the political challenge of balancing the budget in light of increased public spending. Fully up-to-date and taking into account the latest developments in the substantive policy areas, including disputes over the Affordable Care Act, education reform, energy policy, financial regulation, tax reform, and the nation's debt and deficit, *American Public Policy: Promise and Performance* offers readers a nuanced look at the current state of American public policy.

*Public Policy* starts with a concise review of institutions, policy actors, and major theoretical models. The authors then discuss the nature of policy analysis and its practice, and show students how to employ evaluative criteria in six substantive policy areas. *Public Policy* arms students with analytic tools they need to understand the motivations of policy actors—both within and outside of government—Influence a complex, yet comprehensible, policy agenda.

*Environmental Policy and Politics, 9e* provides definitive coverage of environmental politics and policy, lively case material, and a balanced assessment of current environmental issues. The first half of the book sets needed context and describes the policy process, while the second half covers specific environmental issues such as air and water; toxic and hazardous substances; energy (both fossil fuel and nuclear); public lands; and a global policymaking chapter focused on climate change and transboundary politics. Covering major environmental policy initiatives and controversies during President Obama's first term and capturing the sudden and radical changes occurring in the American energy economy with fracking and the natural gas boom, this ninth edition offers needed currency and relevancy for any environmental politics course.

In the most up-to-date core text available on the presidency, Pika and Maltese once again deliver their comprehensive—and accessible—analysis of the presidency. Never losing sight of the foundations of the office, the authors maintain a balance between historical context and contemporary scholarship on the executive. A solid foundation for any presidency course, the revised eighth edition of *The Politics of the Presidency*, by Joseph A. Pika and John Anthony Maltese, features a new chapter on the 2012 election and analysis of Obama's challenges as a second-term president in an entrenched partisan environment.

In *The Supreme Court*, Lawrence Baum provides a brief yet comprehensive introduction to the U.S. Supreme Court, one that is balanced and illuminating. In successive chapters, the book examines each major aspect of the Court: the selection, backgrounds, and departures of justices; the creation of the Court's agenda; the decision-making process and the factors that shape the Court's decisions; the substance of the Court's policies; and the Court's impact on government and American society.
Come to the SAGE/CQ Press booth (#102) and check out these latest publications:

To prepare for an increasingly globalized world, *Crossing Borders* offers a clear, compelling framework for understanding the global forces that both unite and separate world citizens. With smart features designed to promote critical thinking, the book invites students to envision the future roles they might play on the international stage and guides them in developing the intercultural competencies they need to get there. Looking at types of “borders”—geographical, political, economic, social, and cultural—and then delving into extended case study chapters to explore the specific challenges they pose, the authors help students see how these borders contribute to our understanding of the world.

Providing the most comprehensive and balanced coverage of the domestic, regional, and international politics of the Middle East, as well as detailed examinations of all of the countries in the region, this new edition of Ellen Lust's *The Middle East* has been fully revised to take into account the watershed events that have taken place since the 2011 “Arab Spring” uprisings. The new edition also adds coverage of religion, society, and politics in the region in a new chapter that examines the role of both Islam and Judaism, and every country profile chapter now also includes more explicit coverage of religion.

Are you tired of simplistic treatment of the world's most important issues? So many competing readers offer simple black and white treatment of today's complex problems. Help your students see the shades of gray. In this annual reader, *Global Issues: Selections from CQ Researcher, 2013 Edition*, reporters offer students an in-depth and nuanced look at a wide range of today's most pressing issues, ranging from changes in the Middle East and prospects for peace to cyber warfare and conquering AIDS. Each chapter identifies the key players, explores what's at stake, and offers necessary background and analysis so students understand how past and current developments impact the future of each issue.

Richard Ellis and Michael Nelson offer a fresh take on the traditional debate-style reader. With pieces written specifically for this volume by top scholars in the field, each pro or con essay considers a concrete proposal for reforming the political system, from making it easier to amend the Constitution to adopting compulsory voting. By focusing on institutions, rather than liberal or conservative public policies, students tend to leave behind ideology and grapple with claims and evidence to draw their own conclusions and build their own arguments. Students will explore how institutions work in their American government text, but *Debating Reform: Conflicting Perspectives on How to Fix the American Political System* helps them to understand how they can be made to work better.

Now, more than ever, people drive the democratic process. What people think of their government and its leaders, how (or whether) they vote, and what they do or say about a host of political issues greatly affect the further strengthening or erosion of democracy and democratic ideals. This fully updated new sixth edition of *Citizen Politics* continues to offer the only truly comparative study of political attitudes and behavior in the United States, Great Britain, France, and Germany.

In *System under Stress, The Challenge to 21st Century Democracy, Third Edition*, Donald F. Kettl looks at the latest stress to hit the system—the financial crisis of 2008. In his brief, gripping narrative, Kettl assesses how well the U.S. political system responds under extraordinary pressure—from 9/11, to Hurricane Katrina, to the Great Recession—and asks if the government is ready to face that next challenge. A well-known scholar, commentator, and writer in the areas of federalism and governance, Kettl asks the hard questions, makes a credible and persuasive argument, and crafts a readable case study that is fascinating and thought-provoking.

My Thoughts

By Charles-Louis de Secondat, Baron of La Brède and of Montesquieu
Translated, Edited, and with an Introduction by Henry C. Clark

My Thoughts provides a unique window into the mind of one of the undisputed pioneers of modern thought, the author of The Spirit of the Laws. From the publication of his first masterpiece, Persian Letters, in 1721, until his death in 1755, Montesquieu maintained notebooks in which he wrote and dictated ideas on a wide variety of topics. Some of the contents are early drafts of passages that Montesquieu eventually placed in his published works; others are outlines or early versions of projected works that were ultimately lost, unfinished, or abandoned. These notebooks provide important insights into his views on a broad range of topics, including morality, religion, history, law, economics, finance, science, art, and constitutional liberty.

Montesquieu called these notebooks, Mes Penseés (My Thoughts), and they appear in their entirety in English for the first time in this Liberty Fund edition.

Liberty in Mexico

Edited by José Antonio Aguilar Rivera
Translated by Janet M. Burke and Ted Humphrey

Liberty in Mexico presents sixty-four essays and writings on liberty and liberalism, from the early republican period to the late twentieth century, from a variety of authors. The first period (1820–1840) comprises the founding of the republic and the early constitutional experiments. The most important authors in this creative and turbulent period were José María Luis Mora, Lorenzo de Zavala, Valentin Gómez Farías, and Lucas Alamán. During the era of liberal authority, in the third quarter of the century (1845–1876), the most significant figures included Mariano Otero, Ignacio Ramírez, Francisco Zarco, Ignacio Manuel Altamirano, Guillermo Prieto, José María Lafragua, and Benito Juárez. The rule of Porfirio Díaz (1876–1912) provided lively debates over the nature of the liberal legacy. The key authors for this period were Justo Sierra, José María Virgili, and Emilio Rabasa. Essays by Jorge Cuesta and Antonio Caso provide a twentieth-century viewpoint on the subject, and the three selections by Octavio Paz round out and summarize the discussions. The texts in this edition will refute commonly held notions that the liberal project in Latin America had no indigenous roots. The institutions of modern representative government and free-market capitalism were very much part of the founding of Mexico.
