Audio/Visual Instructions

All meeting rooms have an LCD projector (Dell 3100 MP or 3300 MP) and a NetBook computer. Ballrooms will not. The NetBook computers are operating with Windows XP. They are equipped with Open Office (a shareware version of MS Office), Adobe PDF Reader, PowerPoint Reader, Media Player, and antivirus software. You should come to the session with your presentation saved on a USB flash or thumb drive. Please use an inexpensive, disposable drive that you can throw away after the presentation. Though antivirus software is loaded on the computer, there still exists the possibility your drive can get infected. Many people will be using the computers over the course of the conference and some viruses could be transmitted in spite of these precautions.

Presenters will NOT be able to use their own laptop computers. **DO NOT DISCONNECT THE LAPTOP COMPUTER;** this may cause the LCD projector to reset and you may need technical support to fix it. This will use up the limited time you have for your presentation.

- *To begin your presentation, insert your flash drive into the USB port on the NetBook;
- *Open the appropriate software (i.e., to show a PowerPoint presentation, use PowerPoint Reader);
- *Find your file and double click on it to open the file;
- *Keep the flash drive plugged in during your presentation;
- *When the presentation is completed, close all windows;
- *Click on the Safely Remove Hardware icon (flash drive with a green check mark), in the bottom right hand side of the screen;
- *Wait until you are prompted to remove your flash drive, then remove the flash drive.

If you have problems, call PSAV at (312) 917-1706. Let them know you are with the MPSA Conference, the room you are in, the type of problem you are experiencing, and that you need an AV Engineer to assist you. For security reasons, NetBook computers and LCD projectors will be removed from all meeting rooms immediately upon conclusion of each day's panels.

Additional AV services are available, such as establishing internet access in meeting rooms, at your cost (and they charge a lot) and must be arranged in advance. Contact PSAV at (312) 917-1706 for quotes and additional AV options.

Travel

Safety in the City: Please exercise caution in Chicago, just as in any other big city. A few simple precautions include the following: remove your badge outside the conference site; keep all valuables out of sight; don't display expensive jewelry, cameras, bags, and other items that might draw attention; avoid pickpockets (wallets should be kept in front pockets and purses worn across the shoulder); stick to well-lit, well-traveled streets; and always lock your car.

Ground Transportation: Getting around Chicago without a car is easy — use public transportation, taxis, or walk! If you need advice on getting around, ask the hotel concierge.

Shuttle: Airport Express runs buses from O'Hare and Midway airports to the Palmer House. Airport shuttles leave airports every 10 to 15 minutes. Shuttles cost \$27.00 one way between O'Hare and downtown, or \$22.00 one way between Midway and downtown. Approximate time to O'Hare is 40 minutes, and 25 minutes to Midway. For information, schedules, or reservations, call (888) 284-3826 or contact the hotel concierge for hotel departure information. Be sure to state you are a MIPSA conference attendee. All major credit cards are accepted.

Bus/Train: Continental Air Transport (CTA) runs service from the Palmer House to O'Hare and Midway airports. Approximate time from downtown is 45 minutes to O'Hare and 30 minutes to Midway. The fare for one ride is \$2.25 and \$0.25 per transfer. For route, fare, and schedule information call (888) 968-7282. If you plan on using the CTA to get around, Visitor Passes are your best value available for one day (\$5.75), three days (\$14.00), and seven days (\$23.00). These allow unlimited rides on buses and trains. Purchase passes at airports, visitor information centers, Union Station, and other select Chicago attractions or inquire at the hotel for details about this service.

Taxis: Taxis from O'Hare typically cost approximately \$35.00 to \$40.00, and from Midway they cost approximately \$25.00 to \$30.00. An additional charge of \$1.00 is added to the total fare on each trip to or from the airports under the State of Illinois Metropolitan Pier and Exposition Authority Airport Departure Ordinance. The tax should appear on the meter as an "extra" charge. In Chicago, you pay the amount shown on the taximeter, plus any tolls. The meter should start at \$2.25 and then increase \$1.80 for every mile or \$2.00 for every six minutes of waiting time. There is an extra \$1.00 charge for additional passengers over the age of 12 and under the age of 65. There is no extra charge for baggage or credit card use, and tipping is optional. Drivers are not required to carry or to change bills larger than \$20.00. Cabs are readily available at the hotel.

Chicago Trolley Company: Chicago's best fully narrated tour stops at all of Chicago's top attractions and offers San Francisco style trolleys or London style double-decker buses. Tours take about two hours. The tour offers unlimited boarding for those who wish to explore the city, with another trolley or bus arriving every 10 to 15 minutes. Some of the stops on the route are the Art Institute, Hilton Towers and Hotel, Field Museum, Navy Pier, Water Tower, Magnificent Mile, Theater District, Hancock Center, Wrigley Building, Sears Tower and River North. Hours of operation are from 10:00 am to 4:00 pm seven days per week. All day tickets are \$29.00 for adults, \$24.00 for seniors, and \$13.75 for children ages 3-11. Tickets may be purchased at all boarding locations beginning at 8:45 am. For locations without a ticket booth, board the trolley and purchase a ticket from the driver. Call (773) 648-5000 for routes and departure times.

Chicago CityPass: The CityPass offers tickets to five of Chicago's best attractions and saves you 50% off box office prices if purchased individually. This is not a group tour and is designed to allow independent touring. Participant Instructions

Panels

Panels provide each author with an opportunity to present an abbreviated version of his or her paper at the specific time in the printed program. Feedback and comments will be provided by the discussant, followed by comments, questions, and discussion including the audience. Having three to five papers assigned to a session allows approximately 5 minutes for the chair to introduce the session, 10 to 15 minutes per author presentation, 20 minutes of feedback, and 20 minutes of discussion with the audience.

The Role of Panel Chair

The chair is responsible for introducing each paper and the authors as well as the discussant(s). The chair is also responsible for completing the presenter attendance form for the session. In addition, the chair is responsible for managing the time for each presentation, making sure no author exceeds his or her assigned time slot on the program, and insures that the discussion is polite and productive. The exact time for each presenter is listed in the program.

The chair records attendance on the attendance/nomination form provided with his or her registration materials, and is responsible for recommending papers to the MPSA office for any awards. You may nominate papers by indicating your nominations (name of author(s), title of paper, and award) on the attendance/nomination form or by email to mpsainfo@mpsanet.org. Attendance/nomination forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators. The MPSA strongly encourages panel chairs to make nominations as soon as possible while the paper presentations are still fresh in their minds.

The Role of Panel/Poster Discussant

Discussants provide feedback regarding research papers that are presented in a panel or poster session, pointing out both the strengths and areas of improvement. Discussants also may place the research in a broader context and discuss trends and theories.

For poster sessions, the discussants examine each poster to which they are assigned and provide feedback to the author. It is much more casual than serving as a discussant on a panel, where they provide feedback in front of an audience.

Discussants also record attendance on the attendance/nomination form provided with their registration materials, and are responsible for recommending papers to the MPSA office for any awards. You may nominate papers by indicating your nominations (name of author(s), title of paper, and award) on the attendance/nomination form or by email to mpsainfo@mpsanet.org. Attendance/nomination forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators. The MPSA strongly encourages discussants to make nominations as soon as possible while the paper presentations are still fresh in their minds.

Posters

We attempt to organize the posters by topic to encourage more conference attendees to visit the poster presentations. Poster board assignments are listed in the Daily Program Schedule. Poster sessions are held in the 4th floor Exhibit Hall located in the Grand and State Ballrooms, and they are arranged in one long row in the north end of the hall. Posters should be attached to one side of an 8' x 4' freestanding bulletin board. Poster presenters should arrive 15 minutes before their session begins and remain throughout the entire poster session to answer questions. Have all presentation materials prepared for quick assembly. Poster materials need to be tacked to the board; the MPSA provides supplies to do this. Please be sure to remove your poster at the end of the poster session, because another group of posters will be scheduled after yours.

Roundtable Presenters and Chairs

Typically four to eight panelists participate in a roundtable, which includes a chair who introduces the panelists and provides a substantive introduction to the topic. Participants do not prepare papers. They make brief introductory remarks before engaging in ad hoc discussions. The roundtable chair is responsible for completing the attendance form for the session. Attendance forms should be deposited in the marked receptacles on either the 4th or the 7th floors near the elevators.

Poster Sessions

Research posters will be displayed Thursday through Saturday in the Exhibit Hall located in the Grand and State Ballrooms on the 4th floor. The posters are scheduled during the same time slots as the panels. The authors will be present to answer questions and distribute copies of their research findings. Please browse the poster sessions throughout the day. Authors may set up the poster display 15 minutes prior to the start of their session. All necessary posting materials will be supplied. Authors must remove all poster materials promptly at the conclusion of their session.

There are two poster awards given during the MPSA conference: a \$250 award for the best poster presentation during the conference and a \$250 award for the best poster presented by an undergraduate. If you are serving as a discussant during a poster session, please remember to make your nominations for these awards.

Cultural Theory Working Group

The Cultural Theory Working Group is an international gathering of scholars who use the political cultural theory developed by Mary Douglas, Aaron Wildavsky, and others to advance subfield understandings and explanations in political science (see, for example, the symposium on CT in the fall 2011 issue of *PS: Political Science and Politics*). At the working group meeting, Saturday, April 14, 6:30 pm (in the Indiana Room, on the 3rd floor), participants will discuss their research agendas and opportunities to collaborate in testing and developing CT. All participants are also presenting CT papers on a variety of panels (Friday Panels: 2-15, 1-1; Saturday Panels: 50-4, 50-3; Sunday Panels: 50-2, 50-1), with the greatest concentration of such papers being presented on Panel 50-4, Cultural Theories of Public Opinion and Policy Change, meeting Saturday, April 14, 8:30 am. All MPSA conference attendees interested in learning more about CT and how it might be useful to topics on which they work are welcome to attend both the CT working group meeting and panel presentations.

2012 Awards Committees

The MPSA provides awards for outstanding papers and posters delivered at the annual conference. Nominations are made by conference discussants, chairs, and section heads after the conference. The Association strongly encourages individuals holding these section or session responsibilities to nominate papers from their sessions for consideration.

Chairs and discussants may nominate papers at the conference by completing the white attendees/nominations forms attached to their badges. Alternatively, nominators may prepare a memo that states the award for which the paper is to be considered. The memo should include the author(s) name, title of paper, and session on which the paper was presented. Nomination should be emailed by July 1, 2012, to the MPSA office at sepsainfo@mpsansf.org. ***The American Journal of Political Science*, the official journal of the MPSA** **Instructions for Contributors**

The American Journal of Political Science (AJPS) seeks manuscripts that make outstanding contributions to scholarly knowledge about notable (theoretical) concerns, puzzles, or controversies in any subfield of political science. The AJPS will not review papers that are under consideration for publication elsewhere or whose contents have been substantially published before. Papers that do not meet the formatting and submission guidelines described below will not be sent out for review.

The AJPS does not process newly submitted manuscripts between July 15 and Aug. 16 and between Dec. 15 and Jan. 6. Generally, the AJPS follows the style guidelines of the American Political Science Association's *Style Manual for Political Science* and *The Chicago Manual of Style* (15th edition) for issues not addressed in the former manual or these instructions. Effective January 1, 2010, Professor Rick Wilson assumed the editorship; please consult the journal's website (www.ajps.org) for any changes to submission requirements.

Manuscript Formatting

The AJPS prefers manuscripts that are no longer than 8500 words. The word count includes all information from the Introduction to the Discussion/Conclusion as well as figures and tables. It excludes the Abstract, Bibliography and Supporting Information. Manuscripts that are at or near the maximum length will be subjected to special editorial review regarding whether their length is justified. An abstract of 150 words or fewer should be included on the title page of the manuscript. The word count for the manuscript must follow the abstract. All text, footnotes, bibliographic citations, and supporting materials must be double-spaced and printed in a standard 12-point type font. Tables may be single-spaced. Tables and figures should be inserted into the body of the manuscript and they must be numbered consecutively. Papers that are accepted for publication must be prepared by the author in accordance with our requirements for headings, bibliographic citations, tables, figures, and related matters. Instructions regarding these requirements are available on our website under "Accepted Article Guidelines."

Manuscript Submissions

All submissions must be made through the journal's website at www.ajps.org. Email or paper submissions will not be returned. Both original and revised manuscript submissions may include only one anonymous PDF file. The (contact) author must submit the manuscript as an entirely anonymous PDF file. Author identifying information to be excluded from the anonymous PDF file includes: the cover page information on authors, notes of appreciation to others for data or comments on the paper, statements of where the paper may have been presented at a conference, citations to the author's (authors') unpublished scholarship unless essential to the paper, and any other language that could identify the author(s). The manuscript PDF file should be marked as "anonymous" in the "document summary" tab and the file should be printable. Authors submitting revised manuscripts must insert an anonymous revisions memo in the "Respond to Reviewers" section of the submission link. Additional information can be submitted in the "author's comments" field in the manuscript submission link, with comments to the editors, acknowledgements, and details on where the paper has been presented, but it is not required. Related text, data documentation, or additional analyses can be attached as supporting information. In addition to the PDF file described above, authors submitting manuscripts for review should have the names and email addresses of all authors and the text of the paper abstract available before accessing the manuscript submission link. Authors also will be asked to choose a research subfield for the paper. For manuscripts being resubmitted at the invitation of the editors, authors must have the manuscript number of the original paper.

Introduction to Comparative Politics

The State and Its Challenges

ROBERT HISLOPE, *Union College*

ANTHONY MUGHAN, *Ohio State University*

Paperback, ISBN: 9780521758283, March 2012

"Hislope and Mughan have written a superb book – full of fresh insights, lively writing, and good sense. They introduce traditional theories and concepts in comparative politics with skill and economy, but also highlight contemporary issues of great interest to today's students such as globalization, terrorism, and organized crime. Moreover, by including an extended discussion of autocratic regimes and ethnic nationalism, they offer an important corrective to the Eurocentrism of many textbooks. An ideal introduction to comparative politics."

– Timothy Frye, Marshall D. Shulman Professor of Post-Soviet Foreign Policy, Director, Harriman Institute, Columbia University

"During an age of 'hybrid regimes' and a 'global democratic recession,' Introduction to Comparative Politics will help students and educators understand politics across regime types. This is a world-class gateway to the field's most important findings and insights. I strongly recommend it."

– Jason Browner, The University of Texas at Austin

"The American Congress by Smith, Roberts, and Vander Wielen is a superb textbook. I routinely assign it in my undergraduate courses on the U.S. Congress. The Smith textbook is concise, extremely well conceptualized, argued, and written, and perfectly pitched for undergraduates."

NEW JOURNAL From Chicago

Journal of Law and Courts

A new journal for all members of the law and courts intellectual community

David E. Klein, Editor

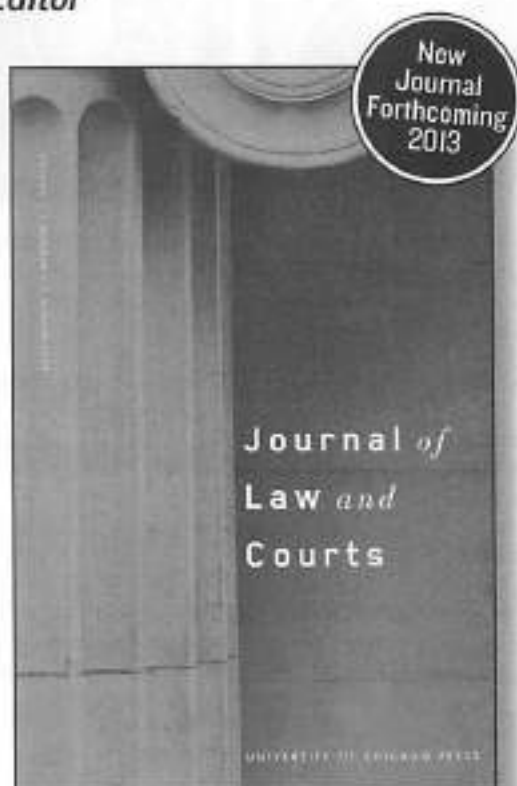

The new peer-reviewed *Journal of Law and Courts* (JLC) aims to be the premier journal for members of the law and courts intellectual community in terms of quality and scope of articles and size and diversity of audience.

Sponsored by a political science organization but published for all scholars interested in legal institutions, actors, processes, and policy, JLC will be interdisciplinary and wide-ranging in substance. Dedicated to combating intellectual fragmentation and promoting communication and fertilization across traditional boundaries, it will not emphasize a particular theoretical or methodological orientation. Published articles will tackle substantively important theoretical or empirical questions, employ highly rigorous arguments and methods, and be written in a manner interesting and accessible to a wide audience of scholars.

JLC is published by the University of Chicago Press in association with the Law and Courts Organized Section of the American Political Science Association. The inaugural issue will publish in early 2013.

JLC is a long awaited and much needed scholarly endeavor. This is a very exciting development."

— Michael McCann, University of Washington

Introducing a new series:

Constitutional Thinking

Jeffrey K. Tulis and Sanford Levinson, series editors

Books in the series will develop constitutional theory beyond legalistic concerns by examining such matters as institutional development; public policy; and political behavior, culture, and theory. The editorial approach, then, favors a constitutional theory embracing the full range of activities relevant to the making, maintenance, and reform of constitutions and constitutional cultures.

Democracy in America *In Two Volumes*

By Alexis de Toqueville
Edited by Eduardo Nolla
Translated by James T. Schleifer

Visit us at Booth #619

In 1831, Alexis de Tocqueville and his friend Gustave de Beaumont visited the United States on behalf of the French government to study American prisons. In their nine months in the U.S. they studied not just the prison system but every aspect of American life, public and private—the political, economic, religious, cultural, and above all social life of the young nation. From Tocqueville's copious notes of what he had seen and heard came *Democracy in America*.

This English edition of *Democracy in America* features Eduardo Nolla's incisive notes to James Schleifer's English translation of the French text, with an extensive selection of early outlines, drafts, manuscript variants, marginalia, unpublished fragments, and other materials: "This new *Democracy* is not only the one that Tocqueville presented to the reader of 1835, then to the reader of 1840. It is enlarged, amplified by a body of texts. . . the reader will see how Tocqueville proceeded with the elaboration of the main ideas of his book."

The Excellencie of a Free-State; Or, The Right Constitution of a Commonwealth

By Marchamont Nedham
Edited and with an Introduction by Blair Worden
David Womersley, General Editor

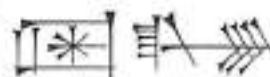

This edition brings back into print, after two and a half centuries, the pioneering work of English republicanism, Marchamont Nedham's *The Excellencie of a Free-State*, which was written in the wake of the execution of King Charles I.

First published in 1656, and compiled from previously written editorials in the parliamentary newsbook *Mercurius Politicus*, *The Excellencie of a Free-State* addressed a dilemma in English politics, namely, what kind of government should the Commonwealth adopt? One possibility was to revert to the ancient constitution and create a Cromwellian monarchy. The alternative was the creation of parliamentary sovereignty, in which there would be a "due and orderly succession of supreme authority in the hands of the people's representatives." Nedham was convinced that only the latter would "best secure the liberties and freedoms of the people from the encroachments and usurpations of tyranny."
