The posters are scheduled during the same timeslots as the panels. The authors will be present to answer questions and distribute copies of their research findings. Please browse the poster sessions throughout the day. To locate specific poster sessions, search the conference program by section number or participant name to find the poster number listed next to the presentation title. (Example: Post. 14 Political Science Presentation indicates that this session is poster number 14.) Poster display panels are arranged in numerical order around the perimeter of the room. Authors may set up their poster display 15 minutes prior to the start of their session. All necessary posting materials will be supplied. Authors must remove all poster materials promptly at the conclusion of their session.

**Exhibition Hall:** The central location for the conference is the Exhibition Hall located on the 4<sup>th</sup> floor. Please visit the Exhibition Hall for poster sessions, exhibits, and refreshments. Exhibit hours are Thursday 9:30 a.m. – 7:30 p.m.; Friday 9:30 a.m. – 6:30 p.m., and Saturday 9:30 a.m. – 5:00 p.m. Be sure to attend the MPSA Exhibitor Welcome Reception there on Thursday from 6:30 p.m. – 7:30 p.m. **You must present your conference name badge to enter the Exhibition Hall.**

### **Shuttle Information:**

Buses will continuously run between the Palmer House and the Chicago Hilton on: Thursday 7:00 a.m. – 9:00 p.m.; Friday 7:00 a.m. – 9:00 p.m.; Saturday 7:00 a.m. – 9:00 p.m.; and on Sunday 7:00 a.m. – 1:30 p.m. from the 8<sup>th</sup> Street South Exit at the Chicago Hilton and from the Wabash Street Exit at the Palmer House.

**Charging Stations:** We will again have locking cell phone charging stations on the 4<sup>th</sup> floor. Charging stations are located in the Exhibition Hall and in the State Ballroom near the registration area. If you need to charge your cell phone simply open one of the available slots on the charging station, connect your phone to the charger and enter a numerical code to lock your slot. You create the numerical security code for your charging slot and therefore, it is unique to you. You must remember and enter that code when you are ready to retrieve your phone from the charging station. This set it and forget it process allows you to securely charge your device while you continue to conduct your conference activities and return when charging is complete. The charging stations accept various types of mobile devices so there'll be a charging connection that fits your device. Use of the charging stations is free.

**Conference App:** Our conference app is available to all registered attendees for download from Apple iTunes for an iOS version of the app for either iPhone or any other iOS devices. It is also available via Google Play Store for Android devices. It can be found by searching "MPSA" in the app stores. Be sure to download the 2018 version. The app features the entire program agenda

as well as a host of additional features. You can set-up your personalized schedule, view the exhibitor list and floor plans, network with attendees, connect with social networking and much more. The hotel will provide free Wi-Fi in most areas. Due to the volume of users, the speed may vary.

After downloading the app, you must log in with the email address you used to register for the event to begin using it. After download, if you are having trouble getting into the app, it may be because your email address was mistyped when you completed your registration. This does happen. If you require assistance accessing or operating the app, please come to the attendee resource desk in front of the State Ballroom or the Exhibition Hall on the 4th floor from Thursday 7:30 a.m. – 5:00 p.m.; Friday and Saturday 7:00 a.m. – 5:00 p.m.; and Sunday 7:30 a.m. – 11:40 a.m.

#### **Meeting Room Wireless Instructions:**

- Turn on your laptop or mobile device's wireless connections to view available Wi-Fi networks.
- Choose and connect to MPSA as your wireless network.
- After connecting to MPSA launch your web browser which will redirect you to the splash page.
- Type in the username: **MPSA2018**; password: **MPSA2018**.
- Check the box "agree to terms".

- From here you can begin browsing the Internet.

**Audiovisual Information:** All meeting rooms have an LCD projector (Dell 3100 MP or 3300 MP) and a Dell Inspiron 15 3000 Series laptop computer. Ballrooms do not. The Dell Inspiron 15 computers are operating with Windows 8. They are equipped with LibreOffice (a shareware version of MS Office), Adobe PDF Reader, Adobe Air, PowerPoint Reader, Media Player, Prezi, and antivirus software. You should come to the session with your presentation saved on a USB flash or thumb drive. Please use an inexpensive, disposable drive that you can throw away after the presentation. Though antivirus software is loaded on the computer, there still exists the possibility your drive can get infected. Many people will be using the computers over the course of the conference and some viruses could be transmitted in spite of these precautions.

Presenters will NOT be able to use their own laptop computers. **DO NOT DISCONNECT THE LAPTOP COMPUTER**; this may cause the LCD projector to reset and you may need technical support to fix it. This will use up the limited time you have for your presentation. You may practice using the computers and LCD projectors at the MPSA A/V Green Room in Burnham 3, on the 7<sup>th</sup> Floor.

- To begin your presentation, insert your flash drive into the USB port on the Dell Inspiron 15;
- Open the appropriate software (i.e., to show a PowerPoint presentation, use PowerPoint Reader);
- Find your file and double click on it to open the file;
- Keep the flash drive plugged in during your presentation;
- When the presentation is completed, close all windows;
- Click on the *Safely Remove Hardware* icon (flash drive with a green check mark) in the bottom right of the screen;
- Wait until you are prompted to remove your flash drive, and then remove the flash drive.

**If you have problems, call PSAV at (312) 917-3462.** Let them know you are with the MPSA Conference, the room you are in, the type of problem you are experiencing, and that you need an A/V engineer to assist you. For security reasons, the laptop computers and LCD projectors will be removed from all meeting rooms immediately upon conclusion of each day's panels.

**A presenters' Green Room is located in Burnham 3 on the 7<sup>th</sup> floor. A/V equipment is set up so that you can test your presentation in advance.** The room will be open Thursday through Saturday, 7:00 a.m. – 6:30 p.m.; and Sunday 7:00 a.m. – 11:00 a.m. Meeting Rooms will be open by 7:30 a.m. should you need to test your presentation before the start of the 8:00 a.m. sessions.

**Citation of MPSA Papers:** By presenting a paper at the MPSA, the author(s) agree to provide a copy of the paper in advance to discussants and chairs of the panel as well as upload the paper to the MPSA website. By doing so, the author(s) grant the MPSA a limited license to publish the paper on the website.

**Coffee Stations:** Complimentary coffee is available Thursday through Saturday in the 4<sup>th</sup> floor Exhibition Hall from 10:00 a.m. – 1:00 p.m., and on Sunday on the 7<sup>th</sup> floor from 8:00 a.m. – 11:00 a.m.

**Nursing Mothers:** If you wish to use the Nursing Mothers' Room, please check in at the conference registration desk for room location and access information.

**Quiet Room:** Looking for a quiet place to be alone with your thoughts, but don't have time to get back to your hotel room? MPSA is reserving the Congress on the 3<sup>rd</sup> floor of the Palmer House, as a quiet space for the duration of the conference to allow attendees to get away from the sounds, lights and energy of the annual conference activity. **Please respect the purpose of this quiet space by planning personal meetings elsewhere.**

**Mentoring Lounge:** MPSA has reserved the Chicago Room on the 5<sup>th</sup> floor as a quiet place for 2017-2018 Academic Year Mentoring matches to hold wrap up meetings and for those participating in the MPSA Mentoring Reception to continue conversations. There is no need to reserve a meeting time for the lounge, though visitors are asked to sign the room's registry upon arrival

**Awards:** Chairs and discussants are responsible for recommending papers to the MPSA office for awards. You may nominate papers by submitting your nominations (name of author(s), title and paper) at [www.MPSAnet.org/awards](http://www.MPSAnet.org/awards) or by email to [mpsainfo@mpsnet.org](mailto:mpsainfo@mpsnet.org). The MPSA strongly encourages chairs and discussants to make nominations as soon as possible while the paper presentations are still fresh in their minds

**Networking:** The MPSA conference offers opportunities to connect with your colleagues through a variety of **networking events**. Some, like the mentoring receptions, require attendees to reserve a seat prior to the conference, while others like the Exhibitor Welcome Reception are open to all participating attendees and require no advanced registration.

#### **Onsite Conference Registration:**

For 2018, you will have two options for registering onsite. You can register via one of the designated self-registration kiosks or at one of our registration counters.

Everyone in attendance at the conference must register. The conference registration center is on the 4<sup>th</sup> floor in the State Ballroom. MPSA members are eligible for the discounted conference registration fee. Registration is also discounted if you stay at one of the conference hotels (Palmer House Hilton, Hilton Chicago, or Hostelling International Chicago) or if you live within a 50-mile radius of the host city. # MPSA Anti-Harassment and Professional Conduct Policy

The Midwest Political Science Association (MPSA) is committed to upholding the highest standards for respectful, professional norms and behavior and to fostering an inclusive climate. Consequently, harassment and unprofessional behavior at MPSA events is considered to be a serious form of misconduct.

The following Anti-Harassment and Professional Conduct Policy modeled closely on the American Political Science Association Anti-Harassment Policy, outlines expectations for all who attend and participate in MPSA events and meetings.

**1. Purpose.** MPSA is committed to fostering a safe, inclusive, respectful and welcoming environment for all members and participants, regardless of race, gender, sexual orientation, ability, ethnicity, socioeconomic status, age, religion or belief. “Participant” in this policy refers to anyone present at MPSA meetings or other sponsored events, including staff, contractors, vendors, exhibitors, venue staff, MPSA members and all other participants.

**2. Expected Behavior.** All participants at MPSA meetings or events are expected to abide by this Anti-Harassment and Professional Conduct Policy in all meeting venues, including ancillary events and official and unofficial social gatherings. Compliance with this policy includes the following:

- Abiding by the norms of professional respect that are necessary to promote the conditions for free academic interchange.
- Agreement to alert relevant MPSA staff or security personnel if a situation arises where someone might be in imminent danger.

**3. Unacceptable Behavior.** Behaviors that violate the Anti-Harassment and Professional Conduct Policy include, but are not limited to, the following:

- Threats or actions that cause or threaten personal harm
- Threats or actions that cause or threaten professional harm, punishment or retaliation

- Harassing photography or recording
- Sustained, unprofessional disruption of talks or other events
- Other intentionally disruptive behavior

Adopted April 6, 2017

## Visually, Hearing or Physically Challenged

MPSA strives to create an environment in which all attendees can participate and socialize together. There might be attendees who are visually, hearing or physically impaired. That includes attendees who are blind, have low vision, are deaf or hard of hearing, use a power wheelchair or an electric scooter, have limited dexterity, and/or mobility.

A visually impaired presenter may request assistance from a conference volunteer to advance slides. The session chair, or a volunteer, can also facilitate question asking.

**Accessibility:** Main Elevator Bank accesses Street, Lobby, Mezzanine Levels, and all guest room floors.

To access 5<sup>th</sup> floor meeting rooms, Exhibition Halls, Salons, and Spa:

- From Street Level, please use the State Street Elevators on Street Level to location
- From guest floors, please use the main elevator bank to 6<sup>th</sup> floor then cross over on the 6<sup>th</sup> floor to State Street elevators. Locations providing wheelchair/ADA lift elevators:
- Pool and Fitness Center on the 8<sup>th</sup> floor, there is a wheelchair lift inside to access both areas.
- For the Empire Ballroom there is a wheelchair lift on the west side of Empire Ballroom near the Lockwood restrooms.

- For the Honoré Ballroom there is a wheelchair lift on the north side of Honoré staircase. Lift may be accessed through automatic sliding door.
- Potters' upper bar may be accessed using automatic doors to the right of the Potters main entrance. The ramp leads to upper bar area.

#### **Requests for Sign Language Interpretation:**

- We will first seek to find volunteer interpreters to assist that attendee. If no volunteer(s) are identified, we do provide a sign language interpreter for up to 3-hours per day for two days. If the attendee requires more hours or days beyond what we provide, the attendee will bear the cost of those additional days and/or hours. We will check which sign language format the attendee is requesting as different countries have different languages.
- MPSA conference staff can help in locating sign language interpretation companies.
- For sign language interpretation, the service will send several interpreters to the conference, who will work over set hours to translate the conference sessions and conversations at social events. The fee may include travel or transportation costs.

#### **Requests for wheelchair or scooter access:**

- MPSA does not provide wheelchairs (power or manual) or scooter (power or manual). We can assist with locating local wheelchair or scooter rental companies for the attendee to contact on their own. Details of wheelchair accessibility at the hotel(s) can be found in the conference program book or by contact concierge:

*Palmer House Hotel - Concierge Desk (312) 917-3477*

*Chicago Hilton - Concierge Desk (312) 786-6210*

#### **Requests for those with reduced mobility:**

- MPSA provides maps of the venue, including locations of conference sessions, stairs, elevators, escalators, bathrooms, accessible bathrooms, breakout areas, quiet rest areas in our conference program book.
- Attendees with limited mobility should make arrangements on their own to identify and secure equipment and resources that will assist them with meeting their limited mobility needs. If the attendee needs assistance with communicating needs to the hotel, we can assist with connecting the attendee to the appropriate team member at the hotel. However, once the connection is made, the attendee must make arrangements and/or pay for additional accommodations in relation to their mobility needs directly with the hotel.

#### **Requests for attendees with reduced dexterity:**

- Attendees with limited dexterity should make arrangements on their own to identify and secure equipment and resources that will assist them with meeting their limited mobility needs. If the attendee needs assistance with communicating needs to the hotel, we can assist with connecting the attendee to the appropriate team member at the hotel. However, once the connection is made, the attendee must make arrangements and/or pay for additional accommodations in relation to their dexterity needs directly with the hotel.

#### **Requests for attendees who are blind or have low vision:**

- MPSA can assist with communicating needs for a ground floor room, a room with braille labelling, or a room near the elevator bays. We can also assist with connecting the attendee to the appropriate team member at the hotel who can arrange an orientation tour of the facility before the conference starts so that the attendee is more equipped to navigate the property. The attendee should communicate any requests for service animals directly with the hotel.

#### **Requests for attendees who are hard of hearing:**

- MPSA can assist with connecting the attendee to the appropriate team member at the hotel who can answer questions regarding induction loops in meeting rooms and ballrooms and any other equipment that they may be able to provide to assist. While we do not have microphone availability for all meeting rooms during the conference, we can provide reserve seating in the front of the room for those who have difficulty hearing.

# Session Formats and Participant Instructions

## Junior Scholar Symposia (JSS)

The Junior Scholar Symposium (JSS) is a unique opportunity for graduate students and faculty who have recently earned their Ph.D. to meet and share their research. Each group will have three to five junior scholars who are doing research on a similar subject and they will meet and present their research with one another and one to three senior scholars. Multiple JSS sessions will occur simultaneously in the Adams Ballroom on the 6<sup>th</sup> floor. Because all attendees will have read each paper in advance, each presenter will provide only a two-minute overview before it opens up to a broader conversation about their specific paper and research agenda. Presenters are expected to comment and contribute to the discussion of papers presented by other participants. JSS will be held during normal panel times. *Attendance is by invitation only.*

## Lightning Talks

During a Lightning Talk, six to eight papers are presented using brief PowerPoint presentations (six-minutes maximum). After each presentation, there will be two minutes of Q&A. At the conclusion of the presentations, there can be more extensive Q&A about any of the papers. The chair will keep the presentations to the exact time limit, so presenters need to have their presentation rehearsed in advance. Each participant is expected to read the other papers on the session, and provide comments on one of them. The PowerPoint and paper need to be provided to the chair two weeks before the conference and the presenter should bring the PowerPoint on a USB.

## Panels

Panels provide each author with an opportunity to present an abbreviated version of his or her paper at the specific time in the printed program. Feedback and comments will be provided by the discussant, followed by comments, questions, and discussion including the audience.

## Posters

Research posters will be displayed Thursday through Saturday in the exhibit hall located in the Exhibition Hall on the 4<sup>th</sup> floor. Poster sessions are scheduled during the same timeslots as panels. Conference attendees may browse the posters throughout the day. Authors will be present to answer questions and distribute copies of their research findings during their scheduled poster session.

To locate specific poster sessions, search the conference program by section number or participant name to find the poster number listed next to the presentation title. (Example: Post. 14 Political Science Presentation indicates that this session is poster number 14.) Poster display panels are arranged in numerical order around the perimeter of the ballroom.

Authors may set up poster displays 15 minutes prior to the start of their session. An 8' x 4' display panel and push pins will be provided for each poster. Authors will bring printed poster materials to attach to the display panel and must remove all poster materials promptly at the conclusion of their session.

## Roundtable

Typically, four to eight panelists participate in a roundtable, which includes a chair who introduces the panelists and provides a substantive introduction to the topic. Participants do not prepare papers. They make brief introductory remarks before engaging in ad hoc discussions.

## Working Group

A working group is a conference within the conference. A volunteer coordinator for each working group proposes a theme, selects and/or organizes sessions for the group to attend, promotes the working group, and facilitates communication among participants.

## The Role of Panel Chair

The chair is responsible for introducing each paper and the authors as well as the discussant(s). The chair is also responsible for managing the time for each presentation, making sure no author exceeds his or her assigned timeslot on the program, and ensures that the discussion is polite and productive. The exact time for each presenter is listed in the program. Chairs are responsible for recommending papers to the MPSA office for awards ([www.MPSAnet.org/awards](http://www.MPSAnet.org/awards)).

**The Role of Lightning Talk Chair**

The chair is responsible for loading the presentation slides on the room laptop immediately prior to the session, and keeping the session on time. One or two people have been assigned as chair. Chairs are also responsible for recommending papers to MPSA for awards ([www.MPSAnet.org/awards](http://www.MPSAnet.org/awards)).

**The Role of Panel Discussant**

One or two discussants are assigned to each panel, and the paper authors will provide a copy of the paper in advance for the discussants to read. If there are two discussants and more than four papers, they may want to divide the papers. Each paper receives comments from only one discussant. Discussants provide feedback pointing out both the strengths and areas that need improvement. Discussants also may place the research in a broader context and discuss trends and themes. Discussants may recommend papers to MPSA for awards ([www.MPSAnet.org/awards](http://www.MPSAnet.org/awards)).

**The Role of JSS Discussant**

One to three discussants are assigned to each Junior Scholar Symposium and the paper authors will provide a copy of the paper in advance for the discussants and other authors on that JSS session so they are familiar with the research. Because there is no general audience, the chairs play a crucial role in providing the authors with feedback. In addition to the comments typical in a panel, JSS discussants may want to discuss publication outlets for this type of research and ways to expand the line of research. Serving as a JSS discussant requires more preparation than serving as a panel discussant. Discussants may also invite other scholars who do research on the same topic to attend the JSS session. JSS discussants may recommend papers to MPSA for awards ([www.MPSAnet.org/awards](http://www.MPSAnet.org/awards)).

**The Role of Poster Discussant**

One or two discussants are assigned to each Poster Session. The poster discussants should receive the paper in advance, but that is not required. They will walk through their assigned posters, asking questions, providing feedback, and making suggestions. Because of the more relaxed nature, serving as a poster discussant is often seen as a bit easier than serving as a panel discussant. Discussants may recommend posters to MPSA for awards ([www.MPSAnet.org/awards](http://www.MPSAnet.org/awards)).

**Complimentary Coffee**

Thursday through Saturday in the Exhibit Hall, 4<sup>th</sup> Floor  
10:00 a.m. – 1:00 p.m. Sunday on the 7<sup>th</sup> Floor, 8:00 a.m. – 11:00 a.m.

**Complimentary Continental Breakfast  
for attendees in our Chicago Hilton Room Block**

Lobby of the Chicago Hilton, near Kitty O'Shea's  
7:00 a.m. – 8:00 a.m. for pastries; 7:00 a.m. – 10:00 a.m. for coffee

# How to Find the Location of Your Poster Session

Poster presentations are scheduled in themed categories (sections) to encourage more conference attendees to visit the posters to engage with the research. As a method of organization, each poster presenter is assigned to a numbered display panel on the perimeter of the Exhibition Hall on the 4<sup>th</sup> floor of the Palmer House.

**To find your poster number, begin by looking up your name in the index at the back of the conference program. (All names are listed in alphabetical order – last name, first name).**

**We have chosen Alice Danelia's poster session as an example. (Example: Danelia, Alice Poster 82-305, Sat 11:30 a.m., \*State Ballroom, 4<sup>th</sup> Floor) Once you have found your listing, you can use this information to search within the program.**

To find detailed information on your session, including your poster number, find correct page in the program book; first search by day (e.g. Sat). Then narrow your search to sessions within your starting time (e.g. 11:30 a.m.).

Finally, look for the section (e.g. 82) and session (e.g. 305). *The section is the number and name of the broad category where your research fits. The session is the number assigned to that specific time slot. With almost 1,000 sessions, this numbering system allows everyone*

# Frequently Asked Questions about the MPSA Conference

## **How can I access a receipt for my conference registration?**

Conference attendees can print registration receipts from the website. Just log in at [www.MSPSAnet.org](http://www.MSPSAnet.org), and click the "My Account" button at the top of the screen, then click the "Manage My Account" link. Scroll down to the "Recent Orders" section to see all recent transactions. Each transaction can be printed from this page by clicking on the "View" button. A PDF of your receipt will open in a new window which will permit you to download or print the document.

## **Does MPSA offer job placement at the conference?**

Since there are traditionally very few positions open in the spring, we decided to forgo the traditional placement area at the MPSA conference. Instead, we have begun to post open positions to our website and in our monthly newsletter as they are submitted. Have an open position? Please email it to [mpsainfo@mpsnet.org](mailto:mpsainfo@mpsnet.org).

## **Does MPSA provide childcare for attendees with children?**

The preferred childcare services recommended by the Palmer House Hilton are American Child Care and American Registry. Childcare can be provided in your hotel room. The rates and form of payment vary between services. For additional recommendations, please call the Palmer House concierge desk at (312) 917-3477.

## **Why can't I participate in more than three sessions at the conference?**

Individuals may participate in up to three roles: presenting papers on no more than two panels, JSS or poster sessions (only one of these may be single author) and in one chair or discussant role. If three or more of your paper proposals are accepted, you must choose which two you will agree to present. Individuals not presenting may still serve as a chair or discussant for up to two sessions. Roundtables and Author Meets Critics do not count toward participation limits.

## **Why is the conference registration fee higher if I do not stay in a conference hotel?**

When the MPSA negotiates a contract with a conference hotel, the association receives free meeting space in exchange for a guarantee that it will use a specific number of sleeping rooms. If attendees do not use the required number of sleeping rooms, the MPSA must pay the cost for these unused rooms, which could amount to hundreds of thousands of dollars. In addition, the more sleeping rooms that conference attendees use, the more attractive the MPSA conference becomes to a hotel, and the MPSA can negotiate even lower room rates.

## **Are meals included in my conference registration?**

No, neither meals nor accommodations are included with your conference registration fee. Your name badge grants you access to panels and poster sessions, the exhibit hall and select receptions.

## **MPSA Annual Business Meeting**

The annual Business Meeting is a public meeting held from 4:45 p.m. – 6:15 p.m. on Saturday in the Red Lacquer Ballroom on the 4<sup>th</sup> floor of the Palmer House Hilton. It includes reports on the circulation of the *AJPS*, membership and finances of the MPSA, the election of officers, and the presentation of awards for the best papers given in the previous year of the MPSA Conference.

The President's Reception starts immediately after the Business Meeting (6:30 p.m. on Saturday) in the Red Lacquer. If you arrive while the meeting is taking place, prior to the reception, please enter quietly so as not to disturb the meeting.

The President's Reception will be hosted by MPSA President Vincent Hutchings, *University of Michigan*.

## Lightning Talk Sessions

During a Lightning Talk, six to eight papers are presented using brief PowerPoint presentations (six-minute maximum). After each presentation, there will be two minutes of Q&A. At the conclusion of the presentations, there can be more extensive Q&A about any of the papers. The Chair will keep the presentations to the exact time limit, so presenters need to have their presentation rehearsed in advance. Each participant is expected to read the other papers on the session, and provide comments on one of them. The presenter should bring the PowerPoint on a USB.

## Call for Papers and Proposals 77<sup>th</sup> Annual Conference

April 4 – 7, 2019  
Palmer House Hilton, Chicago, IL

**Papers, Roundtables, and Complete Panel Proposal Deadline: October 5, 2018**  
**Subfield Proposal and Working Group Deadline: December 7, 2018**

### Instructions for Submitting Proposals

Proposals are to be submitted online using the *2019 Proposal Form* once available on our website, at <http://www.mpsanet.org>.

Proposals should be submitted directly to the appropriate section heads of the 2019 Program Committee using the online form. Do not send the same proposal to more than two section heads. Submitting a proposal to two section heads does not increase the chance of having the proposal accepted.

If you are offering to serve as a chair or discussant, please indicate your fields of expertise and provide a statement of your interests. Individuals may participate on no more than three panels, poster, JSS, or Lightning Talk. Participants may give two paper presentations (only one may be single authored), and serve as a chair and/or discussant on a third session. Roundtables are exempt from participation limits. Groups not affiliated with the MPSA that wish to sponsor sessions should contact the MPSA ([conf@mpsnet.org](mailto:conf@mpsnet.org)) to arrange this.

Papers may be presented on a panel, poster, JSS, or Lightning Talk session format.

The 2019 meeting will take place over four days, on a Thursday morning through Sunday afternoon schedule of sessions. By submitting a proposal, individuals agree to be available to participate in sessions during any of the four days of the conference. Requests for specific days or times for participation are not accepted, except for reasons related to **religious observance** or **unusual family circumstances**. Though the MPSA does value teaching, approximately 80% of attendees teach and we cannot schedule around participant's teaching schedule. Special scheduling requests must be submitted to [conf@mpsnet.org](mailto:conf@mpsnet.org), no later than November 21, 2018.

The Midwest Political Science Association reserves the right to accept or reject any proposal received from an individual or individuals desiring to participate in the annual meeting.

# American Journal of Political Science

## Instructions for Submitting Authors

The *American Journal of Political Science* (AJPS) seeks manuscripts that make outstanding contributions to scholarly knowledge about notable theoretical concerns, empirical issues, or methodological strategies in any subfield of political science. The AJPS will not review manuscripts that are under consideration for publication elsewhere, manuscripts with contents that have been substantially published elsewhere, or new versions of manuscripts that have been rejected previously by the *Journal*. Papers that do not meet the formatting and submission guidelines described below will not be sent out for review. Note that the AJPS will be closed to manuscript submissions from July 14, 2018 through August 14, 2018, and from December 8, 2018 through January 8, 2019.

Articles are selected for publication in the AJPS on the basis of a double-blind review process. Authors and co-authors of submissions to the AJPS are expected to review manuscripts for the *Journal*. The AJPS Editor reserves the right to refuse submissions from authors who repeatedly fail to provide reviews for the *Journal* when invited to do so.

**Manuscript Preparation:** A manuscript submitted for review to the *American Journal of Political Science* should be prepared as follows:

- The manuscript should address an important research problem or question, display a high level of creativity or innovation in research, contribute in a novel way to a body of knowledge, and (as appropriate) demonstrate superb theoretical development along with state-of-the art use of appropriate methodology.
- The manuscript must effectively and informatively communicate its contribution to a general political science audience.
- The manuscript should present its content as efficiently as possible, with no unnecessary material included in the text or exhibits. For example, including a paragraph at the end of the introductory section laying out the organization of the paper is unnecessary.
- The manuscript must include an abstract of 150 words or fewer. The abstract should either appear on the title page or the page immediately following the title page. In either case, the word count for the manuscript must follow the abstract. The abstract should provide a very concise descriptive summary of the research stream to which the manuscript contributes, the specific research topic it addresses, the research strategy employed for the analysis, the results obtained from the analysis, and the implications of the findings. The abstract generally should not include citations to other work.
- In order to maintain the integrity of the double-blind peer review process, the manuscript must exclude any author-identifying information, such as title page information listing authors' names and affiliations, expressions of appreciation to others for advice or data, statements of where the manuscript may have been presented at a conference, acknowledgments of support for the research, or citations to the authors' unpublished work. Citations to one's own published work should be made in the third person (e.g., "In earlier work, Jones (2014) examined ..."), not in the first person (e.g., "In earlier work, I examined ... (Jones 2014)"). In most cases, information that is removed from the manuscript to maintain anonymity should not be indicated with place-holders, such as "AUTHOR CITATION" or "REDACTED."
- The manuscript should not include a lengthy literature review. Instead, the text should cite only works that are directly relevant to the immediate research topic, in the process demonstrating any gaps in the literature that may have led to the current analysis and highlighting the current study's contribution to the ongoing line of scholarly work.
- In most cases, manuscripts should not cite unpublished work as support for the current analysis. Exceptions include presentations at major professional conferences and entries in well-known working paper series. Generally, however, work submitted to the AJPS should be based on prior published research that has undergone a formal review process within the relevant scholarly community. Bibliographic information for any unpublished material must include a URL that enables referees and other interested readers to access the work directly.
- The use of figures to demonstrate an argument or illustrate a finding is strongly encouraged. Authors should ensure that the graphical content of any figures is legible and of high quality. The use of color should be minimized, as it cannot be included in the print version of the AJPS. Color figures are retained in the online version.
- For purposes of review, authors are encouraged to insert figures and tables into the body of the text, thereby enabling referees to refer to the material easily while reading the manuscript. Regardless of whether they are inserted in the text or left at the end of the manuscript, tables and figures should be numbered consecutively.
- The use of asterisks or other symbols to represent varying levels of statistical significance is strongly discouraged. Authors who report that results are "statistically significant" should use the 0.05 level or lower; statistical tests using the 0.10 level are not acceptable for work submitted to the AJPS. Authors always should report whether directional or non-directional statistical hypothesis tests are used.

- The use of supporting information for manuscripts is strongly encouraged and will be treated as a substitute for appendices. The material provided in the supporting information will not be considered part of the word count noted below. Supporting information should be aimed at a sophisticated reader with specialized field expertise. For example, formal theories may include proofs; computational models may include computer code; experiments may include details of the protocol; quantitative empirical work may include data coding, alternative model specifications, and additional tables and figures that elaborate the manuscript's primary point. Qualitative empirical work may include materials underlying contested or central empirical claims, perhaps provided by activating citations and including a transparency appendix. Supporting information will be sent to referees along with the manuscript. If the manuscript is accepted for publication, then the supporting information will be posted on the publisher's website with the electronic copy of the article.
- In most cases, the details of robustness tests also should be relegated to the supporting information. The main text of the manuscript should provide a relatively brief summary of the results from the robustness tests and refer interested readers to the supporting information for more complete presentations of the tests themselves, if necessary.
- Submissions to the *AJPS* should be no longer than 10,000 words. The word count includes the main body of text, notes, references, and the headers of tables and figures. It does not include the title page, Abstract, or Supporting Information. Manuscripts at or near the maximum length will be subjected to special editorial review to determine whether their length is justified. A manuscript that exceeds the 10,000 word limit will be returned without review.
- All submissions should follow the style guidelines from the American Political Science Association's *Style Manual for Political Science* (revised August 2006) or *The Chicago Manual of Style* (16th Edition). The guidelines include, but are not limited to, matters of text style, citations, appendices, notes, references, and figures/tables.
- The *American Journal of Political Science* maintains a strict policy requiring authors of accepted articles to provide all data and code necessary to reproduce their article results. If a manuscript is tentatively accepted for publication, the replication materials will be verified to make sure that they do, in fact, reproduce all results that appear in the article and immediate supporting materials before final acceptance and publication. Authors should review the "AJPS Guidelines for Preparing Replication Files" before submitting a manuscript for review. If there are limitations or restrictions on data access or if an exception to the general replication and verification policy will be requested for any reason, then the author should contact the *AJPS* Editor to explain the situation before submitting the manuscript. Exceptions to the *AJPS* replication and verification policy will be granted at the discretion of the Editor.
- All text, footnotes, and bibliographic references must be doubled-spaced and printed in a standard 12-point type font (material in figures and tables may be single-spaced). Page margins should be a minimum of one inch. All bibliographic references should provide authors' first and last names, not the last name and first initial e.g., **Smith, John**, not **Smith, J.**

**Manuscript Submission:** A manuscript intended for review at the *American Journal of Political Science* must be submitted through Editorial Manager using the procedures described below.

- Submission is available on the *Journal's* website at <http://www.ajps.org>. Only electronic submission is accepted. Other forms of submission will not be accepted.
- If a manuscript has multiple authors, then one author must be designated as the corresponding author. That person will act for the full team of authors as the sole contact for communications with the *AJPS* Editorial Offices throughout the review process. If the manuscript is accepted for publication then the corresponding author will continue to be the sole contact through the replication and verification process.
- Before starting the submission process, the corresponding author for the manuscript should have available the names and e-mail addresses of all authors, as well as the text of the manuscript abstract. At this time, the corresponding author should identify a research subfield for the manuscript and also designate several keywords that identify the topics for which the manuscript is relevant. An author submitting a revised manuscript should further have available the original manuscript number (i.e., that used during the initial review by the *AJPS*).
- An original or revised manuscript must include one (and only one) anonymous file (PDF, Word, or LaTeX format) as described below:
  - The *American Journal of Political Science* uses a double-blind system to review submitted manuscripts. Therefore, the corresponding author must submit a fully anonymous version of the manuscript. The content of the manuscript must conform to the anonymity requirements described above, in the fifth bullet point under "Manuscript Preparation." The file containing the manuscript should be marked "anonymous" in the document summary tab and the file must be printable.
  - An author who submits a revised manuscript must place the memorandum to referees in the dialogue box during the submission process in Editorial Manager.
  - An author may, but is not required to, include comments to the Editor, acknowledgments, and details on where the paper has been presented. This information can be inserted in the "Author Comments" field in Editorial Manager.

- If Supporting Information (SI) included as part of a manuscript submission should be made available to referees during the review process, then the SI must be uploaded as an "Appendix" in the Editorial Manager system. Please follow this instruction even if the SI is intended to serve as online supplemental information (i.e., it would not be included in the print edition of the *AJPS* if the manuscript is accepted for publication). In order to designate the SI as an Online Appendix, then simply write "Online Appendix" in the "Description" text box associated with the file. Please note that any file uploaded to Editorial Manager as a "Supplemental appendix not included in PDF" will not be accessible to the referees during the external review process.
- If a manuscript is accepted for publication, then the final draft must include an unnumbered footnote on the first page giving the URL for the replication materials and also identifying any sources that funded the research. Authors are required to provide data, computer code, and related materials sufficient to enable interested researchers to fully replicate all analyses reported and presented in their *AJPS* article. All replication materials must be stored in the *AJPS* Dataverse on the Harvard Dataverse Network (<https://dataverse.harvard.edu/dataverse/ajps>). Please refer to the "Accepted Article Guidelines" and the "*AJPS* Guidelines for Preparing Replication Files," on the *AJPS* website (<http://ajps.org>) for instructions pertaining to replication materials and the *AJPS* Dataverse. In addition, if Supporting Information accompanies the article, then it must be ready for permanent posting when the final draft is submitted. Manuscripts that do not use data or do not have supporting information are exempt from these latter requirements.
- A corresponding author may recommend up to three or four individuals who are particularly qualified to review the manuscript. Recommendations cannot include an author's doctoral dissertation supervisor, someone with whom an author has co-authored work in the past 12 months, colleagues in an author's department or comparable employment unit, or anyone with whom an author has a familial or other personal relationship. Recommendations are strictly that; none, one, or all of the author-recommended individuals may be selected to review the manuscript. Recommendations of referees must include a name and a contact e-mail address for each person recommended. Author recommendations must be submitted through the Editorial Manager system.
- Authors may also designate up to three or four individuals that they prefer not to review the manuscript. In such cases, the author must specify why the individuals should be disqualified from serving as referees. These designations will be considered when referees are selected for the manuscript. But, the designations should not be construed as barring the individuals from the review process. In other words, one or more of them may still be selected as referees.

**Other Notes:** The *American Journal of Political Science* does not review manuscripts that:

- Do not contain original arguments or analyses
- Are not analytically rigorous, of high quality, and self-contained
- Are unsolicited responses to recently published articles
- Are book reviews or essays on current events
- Are simultaneously under review elsewhere
- Contain material that has already been published elsewhere (without appropriate citation or acknowledgment)
- Fail to comply with the substantive, stylistic, formatting, and anonymity requirements described above
- That have been reviewed previously at the *AJPS*

The Editor and Editorial Staff of the *American Journal of Political Science* seek to provide constructive and informative manuscript reviews that provide authors with useful information regardless of the ultimate editorial decision. And, we are committed to providing authors with efficient and timely turnaround when processing submitted manuscripts. But, the speed of the process is directly affected by the timeliness of referee responses. Accordingly, it may take several months to complete the review of a manuscript. Note also that all reviews are advisory to the *AJPS* Editor, who is solely responsible for publication decisions.

## AJPS Replication and Verification Policy

The corresponding author of a manuscript that is accepted for publication in the *American Journal of Political Science* must provide replication materials that are sufficient to enable interested researchers to reproduce all of the analytic results that are reported in the text and supporting materials. The document titled "*American Journal of Political Science* Guidelines for Preparing Replication Files" provides useful information about what information is needed and how it should be organized. All replication files must be stored in a Dataset within the *AJPS* Dataverse, on the Harvard Dataverse Network. Note that authors also can make their replication files available elsewhere (e.g., their personal website, other data repositories, etc.) as long as all of the necessary files are included in the Dataset on the *AJPS* Dataverse.

The corresponding author should prepare and upload replication materials to the *AJPS* Dataverse before submitting the final draft of the accepted manuscript. The "*American Journal of Political Science* Quick Reference for Uploading Replication Files" provides information about creating a Dataset on the *AJPS* Dataverse and depositing materials into it. The "*American Journal of Political Science* Quantitative Data Verification Checklist" and "*American Journal of Political Science* Qualitative Data Verification Checklist" are designed to help authors ensure that they have provided all necessary files.

When the final draft of the manuscript is submitted, the replication materials will be verified to confirm that they do, in fact, reproduce the analytic results reported in the article. For quantitative analyses, the verification process is carried out by the Archive Staff at the Odum Institute for Research in Social Science, at the University of North Carolina, Chapel Hill. For qualitative analyses, the verification process will be handled by the staff of the Qualitative Data Repository (QDR), at Syracuse University. Immediately after successful verification, the Odum Institute staff or the QDR staff will release the Dataset for public access and the *AJPS* Editorial Staff will forward the final draft of the manuscript to the publisher for copyediting, production, and publication. The *AJPS* Editor retains the final authority for determining whether an article's replication materials will be verified by the Odum Institute or the QDR. Publication in the *American Journal of Political Science* is contingent upon provision of complete replication materials and successful verification of their content.

*AJPS* articles that do not contain empirical data analyses are not subject to this replication and verification policy. In some limited circumstances, an author may request an exemption from the replication and verification policy. This exemption would allow the author to withhold or limit public access to some or all of the data used in an analysis. All other replication materials (e.g., software commands, etc.) still must be provided. The primary reasons for such exemptions are restricted access datasets and human subject protection. If an exemption is granted, then the author must include a note at the beginning of the published article explicating acknowledging the limitations on data availability and describing the restrictions that prevent public access to the exempted data. Any exemptions from the replication and verification policy must be approved explicitly by the *AJPS* Editor, who retains final authority to decide whether the requested exemption will be granted.
